MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 408

The following revised Missouri standards and specifications have been posted on the Missouri eFOTG. Replaced standards will be archived in Section I of the eFOTG under the appropriate year that the standard was revised.

Contour Farming (330)
Filter Strip (393)
Stripcropping (585)

Contour Farming (330) and *Filter Strip (393)* are major revisions of existing standards. Changes to the standard are shown in blue-colored font.

Stripcropping (585) is created and renamed by combining three standards: Contour Stripcropping (585), Field Stripcropping (586), and Cross Wind Stripcropping (589B). No attempt was made to distinguish the paragraphs that were not changed from these original standards.

Field Stripcropping (586) and Cross Wind Stripcropping (589B) are conservation practices that have been withdrawn as national conservation practice standards and removed from Missouri eFOTG.

If you have any questions regarding the material in this transmittal, contact Ron Miller, Conservation Agronomist, Columbia, Missouri.

A handwritten signature in black ink that reads "Roger A. Hansen".
